IN THE ARMED FORCES
DURING WORLD WAR II

worldwartwoveterans.org

The Publishers of this book have used every possible effort to make this book a 100% coverage of Bryan County.

The only source of information available to the Publishers were the public records received from the discharges that were recorded and the individual bringing the information to them.

Names of those veterans who failed to have their discharges recorded or failed to submit their pictures have been omitted due to the fact that no other source of information was available.

The Publishers spent five weeks in trying to get discharges recorded and pictures and information brought to their office. They feel like this was a sufficient amount of time and are very sorry that so many veterans' names and pictures had to be omitted.

We realize, however, that our goal has not been attained and we sincerely regret any exclusions of names, as well as other errors, which may have occurred.
