Major General William M. Miley
Division Commander

HEADQUARTERS 17TH AIRBORNE DIVISION
Office of the Division Commander

1 June 1944

SUBJECT: "The Thunderbolt"

TO : The men of the 17th Airborne Division

1. I am sure that in future years when looking through this book it will be a never ending source of pleasure in recalling memories of your friends and the pleasures and hardships you went through together.

2. I am equally as sure that when this war has been fought to a successful conclusion that you will be proud to look through these pages and know that you were a member of the finest fighting organization in the Army--the SEVENTEENTH AIRBORNE DIVISION.

W. M. Miley
W. M. MILEY,
Major General, U. S. A.,
Commanding

Brigadier General Joseph V. Phelps
Division Artillery Commander

Div. Special Service Officer

MAJOR RAYMOND W. SMITH
Division Ordnance Officer

MAJOR HOWARD P. PAULIN
Headquarters Commandant

MAJOR MAX W. FORESMAN
Division Chaplain

CAPT. JOSEPH P. AHERN
Division Signal Officer

AN AIRBORNE DIVISION IS BORN . . .

AIRBORNE SOLDIERS ARE MADE

THE RAW MATERIAL

RECRUITS . . . Men who didn't know their destination stepping off the train to find that they were AIRBORNE!! . . . A monumental day in their memories . . . the sand dunes of Carolina . . . nothing but sand and pines as far as the eye could see . . . this was to be home for a while . . . this to be their locale for their education in the grim business of killing or getting killed . . . and they went at it with a vengeance. . . .

At ease
down there!!

The long Mile . . .

And to think
they call
them trains!!

Piston-like precision—
the result of that daily
half-hour double time

Scaling the barrier

TRAINING

NOW, WE'LL DOUBLE-TIME ONE MORE BLOCK AND THEN SING, "THIS IS THE ARMY MR. JONES"

AND I USED TO CHASE JACKRABBITS

WHAT MORALE!

MEDIC

THE 17TH'S HAPPY WARRIORS HARDEN UP FOR THE DIVISION PHYSICAL TEST!

THE TEST

26, 27, 28

I USED TO DO DIS IN DE TOLD GRADE

300 YDS - 45 SEC.

33 PUSH-UPS

NOW CRAWL!

WHOOOPS! I'M A COMMANDO

75 YDS - 20 SEC.

UP, DOWN, UP, DOWN, UP, DOWN

75 YD. AGILITY RUN

DID SOMEBODY SAY AIRBORNE?

11 BURPEES - 20 SEC.

4 MILE MARCH

RESULTS

Every man must learn to pack his own chute

Oh, my Airborne back

until the real thing comes along

Say your prayers

Let 'em down
... not so easily

Barbed wire

Dry firing

Prepare to throw

Long thrust

Sweating it out . . .

that first trip upstairs

Holding their breath

First floor coming up

The skies bear fruit . . .

GLIDER INFANTRY . . . Fahwahd Harch . . .
hut, hup, hree, hoo . . . and so moves out the
infantry . . . marching and fighting is their
diet . . . but with the birth of the Glidertroop-
ers came a new kind of Infantry . . . an infan-
try schooled in all the tricks of the ground sol-
dier in addition to being an integral part of
"the vertical envelopment" . . . swoop down
on the enemy . . . catch him by surprise . . .
double-time, move out to meet the enemy . . .
unlash those tiedowns . . . speed means life
. . . or death . . . these are the men who preach
the doctrine of death . . . a little more clever
. . . a little more rugged . . . a little more
resourceful . . . than even the best the enemy
has to offer . . . they will unfold the saga of
the Glidertrooper . . . proud of their calling
. . . anxious for the battle.

PARACHUTE INFANTRY. "Stand up, and hook up!" . . . password to glossy boots and silver wings . . . an integral component of the Airborne's lightning, striking force . . . these men are trained to know their own qualifications, trained to realize that their task is one that requires the utmost of long, hard training . . . they literally "eat it up" . . . their demeanor is of men who can give and take and ask no quarter.

PARACHUTE MAINTENANCE COMPANY

ARTILLERY . . . Backbone of the combat team . . . with their Pack 75s, going to battle in Parachutes and Gliders . . . their task is gargantuan . . . destroying enemy supply dumps . . . communications . . . laying down a protecting barrage . . . blasting the enemy in preparation for the advance . . . striking vital objectives . . . fighting hand-to-hand . . . meeting the enemy with carbine and machine gun . . . the men of artillery are specialists . . . specialists in observing, firing, camouflage . . . dealing out devastation in large measures . . . the sureness of their fire can well determine that fine balance between the defeat and victory . . . they're firing almost before they reach the ground.

ANTI-AIRCRAFT . . . Ack-Ack men . . . kings of the .50 calibre . . . and the .37 mm. anti-tank gun . . . searching the skies with trained eyes . . . and alert minds . . . theirs is the job of obtaining aircraft protection for the Division. Versed not only in the swing of the tripod mount and the recognition of enemy aircraft . . . they set an example of the finest type of fighting soldier. . . . As Airborne troops they reason that they will meet the enemy wherever he arises . . . in the air . . . or on the ground. . . . For this reason they also receive training in anti-tank tactics. . . .

AIR-BORNE AT LAST!!!

Division Parachute School—One Thousand, Two Thousand, Three Thousand!

SPECIAL TROOPS

SPECIAL TROOPS . . . The Jacks of All Trades . . . are found in Division Special Troops . . . to make the blind to see . . . to keep the engines roaring . . . to keep commanders informed of the fluctuating tides of battle . . . to ease the demand for food, clothing, and supplies . . . to organize and simplify the problems of administration . . . these phrases barely begin to explain the multiple tasks of the units of Special Troops. Medics . . . Headquarters . . . Signal . . . Quartermaster . . . Ordnance. . . As companies they operate individually . . . but in effect they are molded together to provide the necessary functions to keep the Division a smooth-running organization.

DIVISION BANDS . . . "They shall have music wherever they go" . . . music hath charm. . . so they say . . . and in the case of our Division bands that is no exception. . . Equally adaptable on the parade field or in the dance hall . . . these bands provide a constant outlet for musical relaxation in the mind of the soldier.

139th AIRBORNE ENGINEER BATTALION

Lt. Col. Stanley T. B. Johnson
Commanding,
139th Airborne Engineer Battalion

AIRBORNE ENGINEERS . . . Experts in their craft . . . dropping out of the skies to wreak destruction on supply dumps . . . bridges . . . rail lines. . . Explosives are playthings with them . . . TNT, dynamite . . . masters of them all. . . Builders, too. . . Need to ford that river?—build a bridge . . . no road?—build one . . . never say no . . . move in first. . . They don't guarantee a highway to advance on, but they'll make things a darn sight easier for you and tough for the enemy. . . Glidertroopers and Parachutists, but they're still engineers, and can prove it.

HEADQUARTERS & SERVICE COMPANY

COMPANY "A"

COMPANY "B"

MANEUVERS . . . we say that word almost with reverence
. . . memories of our first protracted stay in the field . . .
. . . living with cold water . . . sleeping in wet blankets . . .
. . . infiltrating to the chow lines . . . getting thoroughly ac-
. . . quainted with the mud . . . the barracks bag press our
. . . chests had . . . they're in the background now . . . but
. . . they pave the way for the real thing to come.

17th DIVISION ON REVIEW

ANY MAIL TODAY?

Uncle Sam's mailman . . . the most important single morale item ever . . . you see it every day. . . "No mail for me today? Yipes!" Working twenty-four hours a day, these men followed the time-honored motto: "The mail must go through!" Home . . . Nebraska, Pennsylvania . . . Louisiana . . . Iowa . . . these names roll off their tongues . . . and send the mail rolling down to you.

WHAT IS THIS THING CALLED MORALE? . . . That nebulous thing which has the marvelous ability to transform a man from an unhappy soldier to a man with a heart of steel . . . but still containing the desire to laugh. . . . It's intangible. You can't put your finger on it in so many words . . . but it's there, and good morale must be there. . . . The duties of the Special Service Officer run the gamut from A to Z . . . radio shows . . . planning dances . . . arranging transportation to football games . . . organizing and supplying sports . . . stage reviews . . . visitors . . . girls, girls, girls, and more girls for dances . . . parties . . . information bulletins . . . USO shows . . . in short, attempting the mountainous job of keeping the men happy . . . trying to bridge the gap between home and being inculcated in a new and strange environment. . . .

CAFETERIA

There will be a short pause for reel identification

SOCIETY

'Round and 'round she goes

THE CONSTANT

ATTRACTION

SPORTS

... Still another part of Special Service activities ... the crisp "whack" of a cleanly hit ball ... the heavy breathing and bright lights of a boxing match ... the thud of a toe against a football ... a bellowed "yer out!" ... and mingling shouts of applause and dissatisfaction. ... Sports don't have a determined place on the table of Organization of war ... but bodies and minds trained on the ball field to win are determined minds in combat ... eyes that spot a hit ball spot the enemy ... and bodies that survive a bruising tackle survive long marches and discomforts. ... Sports mean alertness ... and alertness means Airborne!

CHA

CHAPLAIN . . . a two-syllable word that introduces those men who offer us spiritual as well as material aid and guidance. . . . Religion is a non-military instinct, but revered by all army men . . . action on fields of battle long ago proved the solace offered by the Chaplain . . . and the reverence for God is in turn reflected in love for country.

AINS

RED CROSS

THE AMERICAN RED CROSS . . . Source of relief and comfort when troubles pile up . . . aid in matters financial, mental, and physical . . . relief from worries to make a man a fighting soldier . . . not a morose soldier. . . . Blood-brother to the army and its members . . . but not a part of the army . . . furlough but no money? . . . wife ill? . . . family worried? . . . The Division Red Cross field Director will investigate and have the solution rapidly.
