World War I & II Veteran Under Study Camp Mabry Trophy Room Under Study

Crystal Ball Needed

With the blessing of our president, Roger Cannon, a two-man fact-finding delegation visited Austin early in December to find out about the wheres and whys of the 36th Division's artifacts and memorabilia.

Historical committee chairman, Oran Stovall and your T-Patcher editor called on members of the AG staff at Camp Mabry. We were shown every courtesy, and obtained keys to all cabinets; spent a few hours going over all items at the Trophy Room.

We were informed that Building 10, which houses our treasurers of both wars is to be remodeled for an OCS center. Which means our Trophy Room will have to be relocated.

An important finding is that the Trophy Room Does

belong to the 36th Division Association, all cabinets, lights, floors, furnishing etc. It can be dis-assembled and located, but where is the question. At this writing, no alternate home has been suggested.

One important discovery we found in the Trophy Room, is that flags, uniforms etc. are in a rapid state of deterioration. This can be overcome when funds are available for this purpose. We were also advised that the Adjutant General's department cannot under law appropriate funds for maintenance of a museum, ours, theirs or anyone's.

As of this date: Those are the sobering facts. Your committee is working on Plan A, B and C. If these fail, it's Katy bar the door.

HISTORICAL PAPERS ARE SAFE

Next stop on our tour: Archives Division of the TEXAS STATE LIBRARY building, on the State Capitol grounds. A very handsome building (1962) which now is the permanent

NEW MEMBERSHIP ROSTER NOW BEING COMPILED

Your hard working membership chairman, Amil Kohutek reports he is underway with a new 1972 Roster, which he hopes to have completed by next issue of the T-Patcher.

This is the second one for Amil, who does it on his own, and there's not a better item you can own than a current roster, if you want to keep up with the hereabouts of your old buddies of the 36th. More later.

**DALLAS
REUNION
Sept. 1, 2, 3.**

It's only 7 months til we meet again. This time at a site well-known to those who attended the 1970 reunion in Dallas. The Royal Coach has everything you could desire in great facilities for a convention.

Your board has met with hotel officials, and all systems are "go". The CP's have been assigned, and all other details are being worked out to bring you the best we've had yet. All we need is YOU.

Start now with a REUNION KITTY. Stash aside in an old tomato can, ONE BUCK each day for the next 210 days, and when Labor Day weekend rolls around, open it up, and the \$210.00 ought to cover you in "great style", with a few bucks left over.

Complete information on this REUNION Sept. 1, 2, 3, 1972 will be mailed this summer to all members of the Association. The main thing now, is to promise yourself - to be in Dallas Labor Day 1972 weekend.

DISCLAIMER FOR "HOSS"

A feature story in TV GUIDE last fall carried a story about DAN BLOCKER of "Bonanza" fame. But, according to a letter from E. PAUL MANSELL, 133rd FA., "Hoss" Cartright is NOT the No. 1 Citizen of O'Donnell, Texas . . . because according to Paul who has been in business in O'Donnell since 1936, "Dan Blocker is Not No. 1 Citizen, it's Paul Mansell, and then Blocker No. 2," says Paul. "He's a great guy, now lives in Switzerland, and hasn't been back to O'Donnell in 2 years," concluded Mansell. (I'm glad we now have that straight). Ed. Note: Paul says he's kiddin'.

141st GREET'S THE QUEEN OF THE SCREEN
 Marlene Dietrich poses in front of the huge banner made by some enterprising members of the 141st to welcome her second appearance for the 36th. This photo from the old T-Patch files was made in Germany, April 1945, only a month before war's end. A year earlier, May 1944, Miss Dietrich appeared for the T-Patchers outside Naples. She had an unknown comic with her at that time, who now is better known as **DANNY THOMAS**.

IF YOU DIDN'T GET YOUR MEDAL — HERE'S WHAT TO DO

With all the confusion at War's end, many of our T-Patchers were issued their Citation etc., for various Bronze, Silver Star Awards. Many did not receive the actual medal that goes with the Citation.

We have been informed that you have a pretty good chance of possibly getting it now, 26 years later (since all the confusion has died down) so, write to:

Adjutant General Department, Washington, D.C.

Then pray and wait.

ANOTHER FIRST FOR THE FIGHTIN' 36th

Couple of months ago we told about one of our troopers who was the first to wed a French girl in WWII. Now we have another: dateline NAPLES, Mar. 31, 1944: First WAC to Marry In Italy Picks Texas. Mary Jo Marlin, Wheeling, W. Va., and Lt. **ROBERT B. SPANGLER** of Baytown, Texas.

EDITOR'S NOTE: If by chance you read more about a certain unit of the 36th, than that of your own, please bear in mind, that we use all and any info sent in. Equal time for all, as they say on television. Send us info about YOUR unit. We'll use it.

ORGANIZATION OF THE MULESKINNERS

Walter M. Howard of New Florence, Pa., sends in this Mule Skinner's Prayer. He claims the skinnners were formed at **THE RACE-TRACK**, near Naples. He was one of the original platoon leaders of that Pack Troop. 1st Lt. Jackson, (Ohio) was our platoon commander. They were attached to Cannon Co., for pay, rations and mail, until above Rome, where the troop was disbanded. They were then placed throughout the 141st as replacements.

Howard received a battlefield commission and was sent to K Co., as platoon leader. Later at Bruyers he had frozen feet and was "Zled".

THANKS to Walter for this interesting bit of info. (ed.).

A Mule Skinner's Prayer

O Lord, please guide our train tonight
 On the trail, through semi-light;
 Our trail is rough, but our aim is true;
 So all our trust we put in you.

The men up there depend on us
 We shall go through, yes we must;
 So guide us safe by thy might
 through this cold rainy night.

Even though we are shelled,
 And our end seems to be spelled,
 We lift our eyes to thee our love
 To see us through to the trail above.

We got the water right up there;
 And the rations which they share,
 Also the ammo that they need,
 Then to return with godspeed.

Jerry shells us once again,
 Up in front, then at the end,
 But thou, O Lord, hath seen us through.
 Because we've put our trust in you.

We thank you O Lord of love,
 We know you heard us up above;
 All of us once more were spared
 Because O God, we know you cared.

Written by Staff Sgt. Walter M. Howard, with Pack Troop 36th Division while in Italy, 1943.

The two above pictures could have been made any time in the past 100 years, but they were made in Oct. 1971.

CEWIN JOHNSON, 1473 Woodlyn, St. Paul, Minn. 55113 sent in these pictures that carry a lot of memories. The top photo is Koenigsborg Castle, where Cewin visited a few months ago. Goes like this: "I was with L Co. 142nd and we took the Koenigsborg Castle and spent one night there. Went down to Kintzheim which was the village below the castle, found the same house on the edge of town that we took, and also went out back of the house through a field that we had gone through where 8 or 9 of our unit were killed. Everything in Kintzheim was the same as it was when we were there 26 years ago."

"Lower photo is street scene in OBERHOFFEN, taken from about the same position as the one you'll see in the PICTORIAL HISTORY, where a GI is shown marching a prisoner, and buildings all shot-up. It was on this street I got hit, and lost my left arm."

Our thanks to JOHNSON for this contribution, we know a lot of 36thers will also relive some memories from these 2 photos.

36th SUSTAINING FUND

Our Sustaining Fund, announced last issue (Oct. 1971) is off to a slow start. To date we have 18 loyal subjects who have each contributed from \$10 to \$25, so you can't say it isn't working. But, we're along way from our goal.

Your treasurer, and financial authority, Col. Qran Stovall has recommended that "donations" be made to the Sustaining Fund in the "name of" a departed friend, husband, or son. This is done in most all non-profit organizations. Bear in mind, the \$3.00 dues is break-even cost-factor, so the Sustaining Fund can be our salvation.

DO YOUR PART, and use the coupon below. List of tax-deductible donars will be published in the August issue.

"Always in the right direction, he was still there when the lanyard was pulled for the last time," he continued, Amil also stated that many of the ole 132nd artillerymen told him he was like a Daddy. \$ THE NEW ARMY \$

THOSE OF US OF World War II vintage got quite a shock the other day when it was announced that a buck private in the new Army will get \$268 a month in base pay. This is hard for those of us who got \$50 a month to realize.

Not only that the Army is spending money to recruit new men. It has \$277 million to spend and has 804 new recruiting offices, 3,875 more recruiters and 2,691 more sedans to scour the countryside for Army volunteers.

The new Army has dropped KP, has eased off on close order drill, abolished reveille, hires civilians to clean the toilets and pick up cigarette butts.

The new Army will have it softer and will be better paid than any Army before it. We had all better hope that it will be trained well enough to protect us.

WORLD WAR ONE Co. K of Yesterday

Here's a real fine book written by ARCHIBALD HART, who served time with 142nd Infantry, Company K in World War I. This book was released in 1969 (Vantage Press, N.Y., 152 pages, pocket size 5½ x 8", hard back cover) but was "rediscovered" recently by AMIL KOHUTEK who latched on to a dozen copies, and the demand for these books has sky-rocketed.

A limited printing, this book will be of interest to any T-Patcher. Mr. Hart, who is 77 Years old, now resides in Albany, N.Y., but is a native Texan, born in Crowell, 1895.

We found "Company K" a fascinating book, but author Hart made only one slight error; he claimed that CAMP BOWIE was located in and about 'North' Fort Worth, (That's where the stock yard is). His description of the "first Camp Bowie in Fort Worth, on the West Side, will bring back memories to those who served at the "second" Camp Bowie in Brownwood, Texas. Life in a pyramidal tent is about the same in any war.

The punch line at the conclusion of the book is worth the price of admission. "COMPANY K" is available now at 3 places: Send your check for \$3.95 to:

Mr. Miles Hart, Route 1, Glen Rose, Texas 76043 . . . or to AMIL Kohutek, 2404 Lincoln Ct., Irving, Texas 75061, or T-Patcher, P. O. Box 1816, Fort Worth, Texas 76101.

Note: Miles Hart, younger brother of the author, is in charge of the book sales.

Home for all of the 36th documents, letters, diaries, photos and the official records (150,000 pages) on microfilm. (For this, we can thank ROBERT L. WAGNER, who pulled strings to get this out of Washington for a new home in Austin).

We were fortunate to obtain a few hours with Mr. John Kinney, Director of the Archives Division, who made many suggestions and recommendations as to how we can best handle our artifacts, documents etc. He pledged his support to us in the Camp Mabry Trophy Room Project.

Conclusion: No definite or logical answers are available. Your Historical committee will continue to dig for solutions — and we hope for GOOD NEWS by the MAY issue of the T-Patcher. Your comments are welcome.

The Coast Guardsman (left) and three soldiers are part of the force which landed at this coastal village after establishment of the United Nations' beachhead at Salerno, 22 miles to the north, in September, 1943. Many U. S. soldiers have visited the town since to see its three ruined temples, built here by Greeks from Sybaris about 600 B. C. The Greek name of Paestum was Poseidonia, or City of Neptune.

Ex-Stars & Stripes Editor Is 36th Division Booster

A few weeks ago, our roving hardworking membership chairman, AMIL KOHUTEK stopped in Itasca (between Waco and Fort Worth) and visited with DONALD McDONALD, editor of the Itasca Item.

Turns out McDonald was on the staff of S&S in Algiers, Naples and Germany and ran this story (shown at right) about the 36th Division members in Itasca.

Here is closing paragraph of his letter to us:

"The 36th Division, to me, will always represent the finest infantry division of all times.

Nothing in the U. S. Army can approach the Infantry for rugged service - and the 36th had all the valor, heroism, and greatness that any American Division in history has ever had".

List of 36th Division Vets (WW I-II) Still In Itasca Is Wanted

Over a period of 43 years that the famed 36th Division was in existence from World War I days to 1968, an estimated 250 men from Itasca served under the now hallowed Arrowhead T-Patch.

The old 36th Division was absorbed by Army re-organization several years ago into brigades with other designations—priority troops in most instances.

Bill Jary, Editor of "The T-Patcher," official publication of the 36th Division Association, has written The Item asking that we publish the following. We are happy to comply, as follows:
Editor, Itasca Item:

Could you get me a list of all the men still living in Itasca who ever served at any time in the 36th Division?

Wanted — Any items on the 36th for our division history and museum. Please send to Bill Jary, Editor The T-Patcher, P. O. Box 1816. Fort Worth, Texas 76101.

THE OLE 36th had a lot of movies made in the early years after the War. Here's one that came out in 1952 starring William Holden, Nancy Olsen and the late Frank Lovejoy. See it soon on your local late TV movies.

EVERY GI WAS IN LOVE WITH HER

Top: ANN CROMER GOPLERUD, of Osage, Iowa was the "Sweetheart of the AES", shown here sewing on a "T-Patch" as John Gannon, Pawtucket, R.I. (left) and Howard Thiboduex, Port Arthur, 111th Engineers, look on. Ann was best known as the Red Cross girl at the Rest Camp in Bains Les Bains, southern France, winter of 1945. Each night, Ann would sing for the T-Patchers. Hundreds of 36thers visited this beautiful Spa in the Vostes Moutains during the hard winter campaign.

A GREAT TRIBUTE

Your membership chairman receives a lot of mail. Here's an especially great one that was sent along to us:

Dear Mr. Kohutek:

My name is Danny Lee. I am the son of GEORGE B. LEE, formerly 1/Sgt., 133rd Field Artillery Bn. My father passed away on July 8, 1971. I am writing to you to find out if my father had paid his dues to the Association. If he had not, please let me know, for I wish to continue paying them in his absence. My father always took a great deal of pride in being a "T-patcher". I am proud of him for doing so, and in his memory, I would like to keep his membership in the Association.

I would like to share a small memory of my father with you. A few months before he died, I took his medals from the Second World War and made a display of them, a Texas flag, and a "T-patch". When I gave it to him, he wiped a tear from his eye and said, "Thank you, Son," and then added, "Don't get the idea I was a hero, Danny, I was just a small part of our Division. The real heroes were the friend and buddies we left behind in Italy and Southern France. The medals given to the guys who lived through the campaigns were monuments to those who died. Those were the men who won the victory and the freedom you have today."

T PATCH OVERSEAS HUMOR

**KILROY
WAS
HERE**

Here's one from your reporter's personal files of G.I. overseas humor. While serving eight days at the 17th General Hospital, Naples, a couple of GI's in my ward became bored. Utilizing a stack of diagnosis cards, they managed for a deck of cards, and started playing "draw poker".

At the end of the first hand, one of them said: "I have a full house, three appendectomies and two tonsil cases. I guess I win". Not so fast replied his buddy "I've got four enemas".

This is a fact: A truck driver in the 132nd had this sign on the back of his 2½ ton: "THIS TRUCK STOPS AT ALL RAILROAD CROSSINGS, BRUNETTES AND REDHEADS. WILL BACK UP HALF A MILE FOR A BLONDE".

SPECIAL NOTE to all T-Patchers who live out of Texas. If you haven't tried Wick Fowler's "2 ALARM CHILI" . . . you've got an experience comin'. His formula of con carne has been compared with the thrill of a "scream-in' Mimi" barrage.

— order his "TWO ALARM CHILI", write to Wick Fowler, CALIENTE CHILI CO., P. O. Box 1444, Austin, Texas 76767.

Another Yankee hits the Trail, making tracks to Texas and a home. **PETE and MARY WALTERS**, made their first Reunion 1970 Dallas, called home then — Union Rd., Wales, Mass. (never heard of it) now picks up his mail (of all places) 514 Dover St., Irving Texas 75060.

Pete Joined the 36th at Camp Bowie, made it all the way with the 141 to the north bank of the Rapido, then spent the rest of the War behind a barbed wire fence in Poland, Pete is looking for a part time job, something to keep him busy, if so, they will remain Loyal Texans.

NEW BOOKS

THE BRASS RING: A Sort of a Memoir (Bill Mauldin; Norton, \$7.95). Bill Mauldin is well known to a lot of T-Patchers, as he visited our gang many times, and his Willie and Joe are some sort of composite of the 36th, 45th and 3rd Divisions.

Mauldin has emerged the king of the cartoonist for WWII, that fact has been established a long time. He has written 12 books, 3 of which have been "Book of the Month Club" selections which includes BRASS RING. His cartoons have won 2 Pulitzer Prizes. Pretty good shootin' for a teenage private that started out with the 45th Division, Camp Barkley 1941.

Probably the best part of his new book, is Mauldin's confrontation with ole Blood and Guts PATTON. Seems the colorful general had no use for Mauldin and his degrading picturization of a fightin' foot soldier. Quote: "Now, Sergeant, about those pictures you draw of those god-awful things you call soldiers. You make them look like bums. No respect for the army, their officers or themselves . . . how long do you think you'd draw those pictures in the Russian Army? . . . The Krauts ought to pin a medal on you for helping them mess up discipline for us . . ."

(Probably what the general of the great Armored Divisions didn't realize, that in combat, his tank jockeys could get a shave a lot easier than a doughfoot in a foxhole).

Now, 26 years later, I think we can safely say that Mauldin is the winner, even though Patton would have thrown him in jail if he ever showed up again in the Third Army.

It's a great book, and we highly recommend it to any T-Patcher, cause he's our kind of folks. BJ.

First Reunion Memorable Occasion for Kerrigan

If there's anything better than a good testimonial letter we don't know what else. Here are excerpts from a letter by GEORGE KERRIGAN, 8008 South Talman, Chicago, Ill. 60652 (famous for his Yum-Yum Tree): "I had the time of my life when I finally made my first reunion, and it won't be my last. SKIPPER BRANDT and his wife came to Chicago along with our lovely friend Aggatha Barry, plus my wife Marg, we flew to HOUSTON and when we saw some of our old buddies after 26 years - we were thrilled to death. We even stayed on an extra 36 hours to see the sights of Houston. A great experience and we'll be in Dallas come Sept. 2nd".

KERRIGAN has been one of great boosters and has helped in rounding up strays. Good work George and thanks for your letter.

FROM THE SCRAPBOOK OF YESTERYEAR

By Amil Kohutek

During the nite of May 30, 1944, Gen. Walker infiltrated two regiments up on to Monte Artemisio. As the silent column made their way up thru the Vineyards, the Luftswaffe made one of its sporadic nite raids on the beachhead, its flares lite up the mountain side but on one spotted the crouching Americans, who waited until the raid was over before continuing their climb.

Dawn had come before they reached the top, but they were unchallenged and managed to seize the summit in broad daylight, capturing the German artillery observation party. One of who was having his morning bath. Not a shot was fired. Behind the Infantry column, the Engineers were soon opening up a rudimentary one way road. The German engineer platoon on the other hand, mistook the size of the Americans, which it could only see in the distance and so did not report the seriousness of the situation, until the Americans were firmly established.

The news of this success electrified Fifth Army. All its Divisions were tired, but the similarity between the seizing of little round top at the battle of Gettysburg and the fall of Monte Artemisio was clear to every American Commander. One more concentrated American power-drive should topple the Caesar Line.

The above photo was sent in by Glenn E. Miller, Lincoln, Neb., a WWI 142nd Infantryman, and a real red-blooded indian from Okla. This familiar scene of a couple of old T-Patchers in 1918, was still about the same when the 36th used the same convenient facility twenty-odd years later.

Judge Miller, a retired school administrator, state highway appraiser and county judge, has long championed the World War I boys, and claims we haven't given these old-timers enough recognition. But, Judge, that's all changed now. We've just read 8 books on WWI, and we can't see much difference in the two fracas's, except we in WWII had a little longer tour than those of WWI. Only thing that really matters is that we WON both times. Send us some more photos, Judge, and thanks.

MONTE CASSINO REVISITED

Hank Clark of Nocona, Texas a recent visitor to the Liri Valley, took the 6 lane freeway to look at the Monte Cassino Abbey, the City and Rapiko River, complete with a 5 minute narrative of the events of 1944.

Clark says he told a fellow tourist that he knew some of the men who fought the battles, and a guy named Stovall who built roads and bridges.

Looking at the beautiful new roads now constructed, the fellow tourist replied: "Well, he did a helluva good job of it, especially as it was built under enemy fire". (har har).

At war's end, VE Day, May 8, 1945, there were 3 million GI's in Europe, including a bunch of T-Patchers, all anxious to get back home. Since there was still a hot-war going on in the Pacific, practically all ships were being reloaded and Tokyo bound.

But the old-timers of the 36th had been told by IKE himself that troopers "over-seas 2 years", would NOT go to the Jap war. So, our ingenious Army Air Corps' ATC converted their hundreds of B17's in England, and used them to shuttle GI's out of Mar-sailles to Casablanca, then via new C54's flew the Atlantic to Natal, Brazil. Restaged then into DC3's on to Puerto Rico, and Miami. Then train to Camp Blanding, and on to their final discharge point and the Ruptured Duck. Our thanks to the fly boys. Roger, over and out.

World War I Lieutenant Coined 142nd's "I'll Face You" Motto At Aisne River

By Pfc. Howard Jones

Behind the regimental insignia of the 142nd Infantry lies a story of courageous men of the same regiment during World War I. In 1917 the 142nd Infantry was organized from units of the Seventh Texas and First Oklahoma Regiments at old Camp Bowie, Fort Worth, Texas.

The "I'll Face You" insignia, consisting of a battered church steeple and a red river designating blood, resulted from the regiment's final action in the St. Mihiel sector in October, 1918. The broad irregular stream running horizontally across the shield represents the bloody Aisne River over which the final action materialized. During this action the 142nd suffered heavily.

The battered steeple in the upper portion of the insignia also has its distinctive significance. The regiment was being held up by a German machine-gun nest and an observation

post placed cleverly in a church steeple at St. Etienne-sur-Arnes, starting point of the last offensive which ultimately broke German resistance in the last war. Under cover of darkness a few volunteers took a mortar to within range and speeded their fire into the steeple, destroying the enemy position and allowing the regiment to carry on.

Probably the best known portion of the insignia is the motto, "I'll Face You." During the last campaign a young lieutenant was given the mission of taking a patrol across the River Aisne to determine enemy strength and disposition. Realizing that their chances of returning were slim, they crossed the river.

The Germans allowed them to cross, but as they made their way over the

dike on the far side of the Aisne, all hell broke loose. Men dropped; several were killed instantly. The lieutenant was wounded, but more seriously wounded was one of his men.

Lifting the limp body, the lieutenant ordered his men to withdraw while he, armed only with a pistol, held off the enemy. When he ran low in ammunition, he reluctantly backed away from the death trap, and mockingly cried out, "I've got to go back, but by God, I'll face you."

The motto of the 142nd Infantry was born when the young officer refused, in the face of overwhelming odds, to turn his back to the Germans.

This is the first in a series of articles on the stories behind your regimental, battalion, and company insignias. T-Patch will run one unit insignia each week until each organization in the Division has been covered.

Association History Underway

A complete mailing about this book will be sent to all members of the association sometime in March. This will give complete details — in depth — as to the scope of this history. We feel most all T-Patchers will want a copy. The HISTORY will be ready by Reunion time in Dallas, Sept. 1-2-3.

**ONCE A T-PATCHER,
ALWAYS A T-PATCHER!**

Book To Cover 27 Post War Years

Millions of words have been written about the exploits of the 36th Division in World War II. It suddenly became apparent that nothing had been done about the "history" of the ASSOCIATION. This project is now underway by your T-Patcher editor, (who in a moment of insanity) has started compiling all the data of the association since it was organized in Dec. 1945. After digging into this mass of material, we find a very fascinating history indeed.

This year marks our 27 year — post war . . . we've accomplished more than you might imagine. The book will cover all these years with 3 or 4 pages per year, plus a recap of the division's activities, the long-road-home and the ruptured duck. A complete tabulation of all our various post-war awards, monuments, parades, all compiled from news clips, letters, private files of past-presidents and official records. It is programmed for 144 pages, with cardboard cover, and illustrated with over 200 photographs.

It is hoped that the cost-factor can be kept at a minimum, possibly as low as \$4.00 a copy (2 for \$7.00). It would be helpful to your association if you'd send in your "desire" to obtain one or more copies now. This would give an indication of the print-order. A postcard will do, but let us hear from you. Write T-Patcher, P.O. Box 1816, Fort Worth, Texas 76101.

POCKET TESTAMENT which he received from home and inscribed, "May This Keep You Safe from Harm," is credited by Pvt. Mitchell Lanier, of Summertown, Tenn., attached to the 142nd Inf. Med. with saving his life. Carried in his left breast pocket, the book was shattered by shell fragments at Leiprenne, France.

THERE'S ONE (or more) IN EVERY WAR. Here's one from old T-Patch files, that later ran in Army Times, Feb. 1945. Pvt. Lanier also had company in his lucky break . . . several were reported in World War I and II.
