**I. Award of Distinguished Service Medal, Brigadier General Bradford G Chynoweth.**

I. The following War Department announcement of the award of the Distinguished Service Medal to Brigadier General Bradford G Chynoweth, is repeated for the information of all members of the 53d Infantry Regiment. General Chynoweth, our former Regimental Commander, assumed command of this unit upon its reactivation at Fort Ord, California on August 1st, 1940 and until his departure on October 25, 1941 his leadership, force and personality created and maintained the high standards and esprit de corps of the Regiment. The present high standards, morale and achievements of the Regiment as a whole during the past 18 months is due, therefore, in great measure, to the superior policies formulated by him and to his inspiring leadership.

II.--Awards of Distinguished-Service Medal.--By direction of the President, under the provisions of the act of Congress approved July 9, 1919 (Bull. 43, W.D., 1916), a Distinguished-Service Medal was awarded by the War Department to the following-named officers:

Bradford G. Chynoweth, brigadier general, Army of the United States. For exceptionally meritorious service to the Government in a duty of great responsibility in the Philippine Islands from November 26, 1941, to March 17, 1942. As commander of the 61st Division (Philippine Army), Brigadier General Chynoweth supervised the training and the completion of the mobilization of his division. Upon the outbreak of hostilities he posted his force for defense of the Island of Panay; he organized, trained, and equipped additional units of the Philippine Army. He assembled supplies on the Island of Panay which, when shipped to Corregidor, proved invaluable in sustaining the Bataan garrison. On March 3, 1942, he was assigned to command the Visayan Force, charged with the defense of the central islands of the Philippine Group. His force and energy contributed materially to the success of operations during this period. Entered Military Academy from Wisconsin.
